The Friends of Mike Lee, Inc., amended its October Quarterly report (07/01/2014 - 09/30/2014) on January 9, 2015 for additional deposits within a PayPal account in the amount of \$11,930 that had not been disclosed in the original filing.

At the time of the original filing, the committee was making changes to key personnel that had access to the detail of the account rendering the information unavailable at that time.

The committee amended the reports as the information became available and took necessary steps to resolve the matter moving forward by closing the PayPal account to prevent future filing issues.
